

EBEHI IJEWERE

NCARB | AIA ASSOC. | LEED GA | REVIT ACP
FOUNDER OF LAYERS OF DESIGN

eijew001@gmail.com | 305-744-2812

I am a self motivated designer who believes that good design contributes to the well-being of a community. I am confident in my ability to be a good team player and work hard to achieve project goals. My knowledge of various architectural programs has helped me effectively design and produce drawings for commercial, healthcare, educational, aviation and civic projects. Currently working on my architecture licensing exams, I am seeking an Architectural Designer position at a highly competitive architecture firm where I can continue challenging myself and pushing boundaries in the field of architecture.

My passions for design and community development led me to create a design podcast, Layers of Design, a platform where designers, architects and artists alike share their stories and experiences in the design field. Layers of Design hosts events that spark conversations and inspire the community through volunteer experiences.
